

A DAY IN THE LIFE AT ACCENTURE FEDERAL SERVICES

VIDEO TRANSCRIPT

As a person joining Accenture Federal Services from an acquisition, I was really surprised by the warm culture that encouraged me to be my authentic self, and empowered me to do my best work.

We have a strong focus on the values of inclusivity, collaboration, and caring. The recognition of our people allows us to thrive as individuals and as a company.

I'm proud to be part of an environment where my colleagues and I can celebrate our backgrounds and our perspectives. This plays a critical role in supporting the innovation we deliver for our projects.

Regardless of job title or clearance level, we all get the opportunity to help our clients shape the future. Helping to solve some of the government's most difficult problems is more than just a challenge. It's an opportunity to make real change.

I'm here for a career and not just a job. I want to be where the learning and experiences never stop and where I'm constantly growing.

Accenture Federal Services is the place for career development and upskilling. I love our culture. Mentors inspire growth and a sense of real community. This company takes care of its people and is passionate about the client mission.

As a veteran who transitioned to a corporate career, I appreciate being in a place where my leadership, commitment, and military expertise are recognized. I love being part of a team that finds extraordinary solutions to improve the way our federal government makes the nation more efficient, stronger, and safer.

I'm honored to offer my talents to support a greater sense of purpose. There's no greater feeling than knowing we've done our part to build a better future for us all.
