

WORCESTER POLYTECHNIC INSTITUTE FINDS SUCCESS DURING COVID-19

VIDEO TRANSCRIPT

First and foremost, when COVID hit in 2020, we actually had to move all of our operations completely remotely. And because we were already live on Workday for HCM and Finance, it allowed our offices to make a very smooth transition and perform every task remotely for almost a year.

With COVID, it has become even more important to offer all services to students and employees electronically and to ensure that those systems are easy to use.

If we hadn't been on Workday HCM and Finance, I think it would have been impossible for our teams to do their jobs from home. They probably would have come into the office. And being able to be home during COVID, especially during the worst of COVID, really eased anxiety for a lot of our staff so it was a huge benefit. And I believe our finance team even closed the fiscal year remotely from home so we're really able to do everything 100% remote if we need to.
