Horizon 3 Market Leader
Ecosystem Impact Creating New Sources of Value and “Over-the-Horizon” Predictive Planning

Value proposition: Driving overall client value through integrated CFO services, operating outside of its silos, and going to the market with an organization-wide collective knowledge.

Growth proof points: Continuous investment in building industry solutions, a strategic partner ecosystem, significant client base growth, and accelerating innovation architecture to co-innovate with clients.

Key differentiators: Accenture Reinvention Console, a fully digitized platform with all assets and solutions that enables asset-led repeatable solutions to deliver compressed transformation and 360° value. SynOps, an Accenture asset interconnecting all the platforms and bringing partners together. Investing in generative AI to curate domain and client-specific value models. Innovation in areas like hyperautomation.

Outcomes: Redesigning finance led to a 20%-30% savings annually for a multi-national conglomerate.

Customer kudos: Appreciated for service quality, talent pool, client orientation, large offerings, and collaborative mindset.

Partner kudos: Acknowledged for customer centricity, global scale of operations, and innovation.
