VIDEO TRANSCRIPT

Why Accenture?

0:03 there are two main reasons why i chose
0:04 accenture number one is the people every
0:07 single person who i talked to had
0:08 passion in their eyes for what they do
0:10 and that's really what i was looking for
0:12 that's one thing i really enjoy about
0:13 accenture the network that you can tap
0:16 into which allows you to also build your
0:18 brand and shape your career path in any
0:20 way you want number two is the different
0:22 paths that you can choose you can do
0:24 different types of work different roles
0:26 different industries and that really
0:28 creates a world of opportunity
Sounds good. But what do you actually do?
0:35 a lot of what we do is work
0:37 collaboratively among our team and with
0:39 our clients to drive towards an
0:41 agreed-upon solution which means we
0:43 proactively talk to our clients about

0:45 their business problems and big picture
0:47 strategies and provide advisory and
0:49 delivery services to help them achieve
0:51 their goals is every day the same?
0:56 we really are a global collaborative
0:58 company my day to day can really vary a
1:01 lot
1:02 i'm heading into the final few weeks of
1:04 a project that i've been on working with
1:06 a company to do a refresh of their three
1:08 year strategy not only are we looking at
1:11 financial performance but also you know
1:14 exploring many different factors of what
1:16 they want their future vision to look
1:18 like my typical day starts with the
1:20 daily call where we give our updates on
1:23 our projects and the cool thing about
1:24 that we get to work with people all over
1:26 the world so some of my team is here and
1:28 some of my team is in argentina and some

1:31 of them are in the philippines
1:32 [Music] Are you learning a lot out there?
1:36 i chose accenture because of learning
1:38 opportunities i wanted to work in a
1:40 fast-paced environment across a broad
1:42 spectrum of topics with smart people who
1:43 are willing to help me learn and i
1:45 definitely feel like i've had that
1:46 opportunity at accenture the biggest
1:48 skill that i'm learning is how to be
1:49 flexible and it has been teaching me
1:51 about how to be an amazing consultant
So... life is good at Accenture?
1:55 [Music]
1:58 developing a corporate career seeing the
1:59 world and advising my clients on how to
2:02 improve their employee experience has
2:04 been awesome i love my time at accenture
2:07 this is anything but a typical day but
2:09 in consulting there really is no typical
2:11 day and that's why i love my job at
2:13 accenture it's sometimes challenging and
2:15 i'm not gonna lie sometimes there are
2:17 levels of stress but it is never boring
2:20 it's always changing and we know how to

2:23 not take ourselves too seriously so we

2:25 literally work out and play hard
