

INTELLIGENT OPERATIONS APPLYING THE NEW. NOW.

Jennifer Duff

Global Life Sciences Operations Lead, Accenture

So what is Intelligent Operations?
And how is Accenture applying the new, now?

Leveraging our broad knowledge and over 20 years of operations experience within the Life Sciences industry, our teams are applying business process expertise, technology, applied intelligence and data to our clients needs. Our goal is to enable superior decision making, business outcomes and customer experiences. We are partnering with clients to reinvent business processes with Intelligent Operations to better harness the talent, leverage data and bring improved intelligence with the ultimate goal to deliver the right information where and when it's needed.
