

COMPANIA MEGA

VIDEO TRANSCRIPT

Compañía Mega, together with Accenture, has started its journey toward digital transformation. A strategic process of modernization and growth.

We had a challenge...

To help Compañía Mega perform a greenfield implementation of SAP SuccessFactors® to support its HR processes.

This would deliver a new technology landscape and modernize its core HR processes.

With a unique cloud platform for all HR processes, Compañía Mega was able to:

- Decentralize HR complexity
- Reduce manual work
- Minimize IT support needs
- Optimize efficiency

At Accenture, we are engaged with the future, helping oil & gas companies drive their journey toward digital transformation.
