00:00:01,418 --> 00:00:04,129

When you look up at the sky,

2

00:00:04,129 --> 00:00:06,881

there's a feeling of awe...

3

00:00:06,881 --> 00:00:08,008

of wonder...

4

00:00:08,508 --> 00:00:10,802

of infinite opportunities.

5

00:00:10,969 --> 00:00:13,221

What seems so distant

6

00:00:13,221 --> 00:00:14,931

is already in our grasp.

7

00:00:15,515 --> 00:00:17,142

We're joining our partners

8

00:00:17,142 --> 00:00:19,060

to take the next small step...

9

00:00:19,060 --> 00:00:21,438

and the next giant leap.

10

00:00:22,772 --> 00:00:24,607

Looking down from space,

11

00:00:24,607 --> 00:00:25,692

ours is a world

12

00:00:25,692 --> 00:00:26,943

filled with beauty

13

00:00:26,943 --> 00:00:28,862

and inspiring possibilities

14

00:00:28,862 --> 00:00:30,530

just over the horizon.

15

00:00:31,448 --> 00:00:32,782

At Accenture,

16

00:00:32,782 --> 00:00:34,325

we're embracing innovation

17

00:00:34,325 --> 00:00:35,952

and space technology

18

00:00:35,952 --> 00:00:37,746

and turning those possibilities

19

00:00:37,746 --> 00:00:39,539

into realities.

20

00:00:40,248 --> 00:00:42,459

We're connecting satellite constellations

21

00:00:42,459 --> 00:00:44,627

for easy and secure communications,

22

00:00:45,545 --> 00:00:46,546

using satellites

23

00:00:46,546 --> 00:00:47,464

to help farmers

24

00:00:47,464 --> 00:00:49,841

prevent disease and improve crop yields.

25

00:00:50,675 --> 00:00:52,385

combining Earth observation with AI

26

00:00:52,385 --> 00:00:55,096

to protect delicate ecosystems

27

00:00:55,096 --> 00:00:58,600

and help keep our planet thriving.

28

00:00:59,517 --> 00:01:01,895

If you're already working in space,

29

00:01:01,895 --> 00:01:04,105

we'll help you do more.

30

00:01:04,189 --> 00:01:06,024

If you're still on the ground,

31

00:01:06,024 --> 00:01:08,109

we'll light the way.

32

00:01:08,109 --> 00:01:10,528

We're finding new ways to get there...

33

00:01:10,528 --> 00:01:12,155

...new ways to learn...

34

00:01:12,155 --> 00:01:14,616

...and new tools to assist us.

35

00:01:14,616 --> 00:01:15,867

Looking ahead,

36

00:01:15,867 --> 00:01:18,495

the opportunities in space are limitless.

37

00:01:19,287 --> 00:01:19,996

We'll be pushing

38

00:01:19,996 --> 00:01:22,165

the boundaries of exploration

39

00:01:22,165 --> 00:01:23,750

and inhabiting new structures

40

00:01:23,750 --> 00:01:25,210

and ecosystems,

41

00:01:25,210 --> 00:01:27,629

creating new areas of growth.

42

00:01:27,629 --> 00:01:29,756

It's an epic journey of discovery,

43

00:01:30,131 --> 00:01:32,300

and there's room for all.

44

00:01:32,300 --> 00:01:34,886

So, when you look up at the marvel of space,

45

00:01:34,886 --> 00:01:36,012

remember,

46

00:01:36,012 --> 00:01:38,056
