

WHY ACCENTURE? | ACCENTURE VIDEO TRANSCRIPT

Why Accenture?

There are two main reasons why I chose Accenture. Number one is the people. Every single person that I had talked to had passion in their eyes for what they do. That was exactly what I was looking for. There is exactly what I enjoy about Accenture, the network that you can tap into which allows you to build your brand and shape your career path. Number two is different paths that you can choose. You can do different types of work, different roles, different industries, and that really creates a work of opportunity.

Sounds good.

But that do you actually do?

A lot of what we do is work collaborative with our team and our clients to drive towards a solution. We means that we have to actively talk to our clients about their business problems, big picture strategies and provide advisory and delivery services to help them achieve their goals.

Is every day the same?

We really are a global collaborative company. My day to day can really vary a lot. I'm heading towards the final weeks of a project I've been working with a company to do a refresh of their three years strategy. Not only are we looking at financial formats but also exploring different factors of what they want their future vision to look like. My typical day starts with the daily call where we give our updates on our projects and the cool thing about that is we get to work with people all over the world so some of my team is here and some of my team is in Argentina and some of them are in the Philippines

Are you learning a lot out there?

I chose Accenture because of learning opportunities. I wanted to work in a fast-paced environment across a broad spectrum of topics with smart people who were willing to help me learn and I definitely feel like I've had that opportunity at Accenture. The biggest skill that I'm learning is how to be flexible and it has been teaching me about how to be an amazing consultant.

WHY ACCENTURE? | ACCENTURE VIDEO TRANSCRIPT

So... life is good at Accenture?

Developing a corporate career seeing the world and advising my clients on how to improve their employee experience has been awesome. I love my time at Accenture, this is anything but a typical day but in consulting there really is no typical day and that is why I love my job at Accenture. It is sometimes challenging and I am not gonna lie, sometimes there are levels of stress but it is never boring, it is always changing and we know how to not take ourselves too seriously so we literally work out and play hard.
