

# TRANSFORMING CYBERSECURITY MYSECURITY ADVANTAGE

## VIDEO TRANSCRIPT

0:25

We live in a world where technological demands are evolving daily, pushing the boundaries of cybersecurity

8:04

As organizations continue to digitally transform the way they work the potential for sophisticated cyber attacks on their systems grows

17:19

Security is now a top priority for the C-suite and board, making it imperative that security is both robust and understandable

27:25

Organizations are overwhelmed by tech debt too many tools, too many vendors, and they face a significant skills shortage

39:01

Security needs to change

41:17

mySecurity can shift your security from incremental and reactive to swift, scalable, and resilient

49:04

Powered by the latest in generative AI technology, the mySecurity Asset Suite delivers a full range of diagnostic tools

7:12

As a service solutions and transformation accelerators mySecurity suite enhances your business's transformation and defenses across all domains, including cloud, identity, applications, network, and platforms

1:15:18

mySecurity simplifies and coordinates essential components that must be started, stopped, or transformed using our services, assets and partner technologies

1:27:25

It uses diagnostics to identify risks, optimize costs, and improve processes

1:34:03

It accelerates transformation and modernization with generative AI onboarding and migration tools

1:41:00

It delivers cybersecurity as a service with AI driven automation at speed and scale

1:47:11

The mySecurity Portal provides clear visibility into your system, security status and safeguards with real time monitoring and advanced analytics

1:57:00

mySecurity provides round the clock insights, keeping your enterprise protected

2:03:00 With

mySecurity you get an accelerated cybersecurity makeover so you can evolve faster

2:09:09

A quicker threat response rate with gen AI, enhanced automated fixes in the face of attacks

2:15:28

Reduced security operating costs, freeing up resources to invest back into innovation and business growth

2:24:09

Peace of mind, allowing you to focus on what you do best

2:29:01

Clients who have used my security also reported better cost control, improved user efficiencies and enhanced risk management and end to end visibility

2:39:18

mySecurity - your partner in digital defense. And in case anyone hasn't read about the elastic digital workforce, please check it out
