

ACCENTURE AND AWS: MAKING BIG IDEAS HAPPEN

VIDEO TRANSCRIPT

With the Accenture and AWS Business Group

Having your head in the clouds...

is a good thing!

For industries, we turn big ideas into big change,
like:

Technology enabled first responders

who need every second.

Innovating supply chains for

seamless customer experiences

And saving the world's coral reefs by

empowering scientists to act on an ocean's
worth of data.

So when your head's in the clouds

your ideas go further, faster.

Accenture and AWS is how big ideas happen.
