Hi, my name is Anil Shetty. I live in Bangalore, India.

Hi, my name is Delano Johnson. I live in Chicago, Illinois.

Hi. I'm Sudhan Sundaram. I live here in Singapore.

Hi, I am Esperanza Martorell and I live in Barcelona.

Hi, my name is Jonathan Joyce. I live in Washington, DC.

Hi, my name is Corrine Schloesser-Rinkel. I live in Treves, Germany.

### **Jonathan Joyce**

Accenture is the largest technology consulting firm in the world.

### **Corrine Schloesser-Rinkel**

We, jointly with our clients, achieve something that none of us could have done on their own.

### **Anil Shetty**

This is a firm which is growing faster than anywhere in the market,

### **Esperanza Martorell**

Six years ago, when I joined Accenture, analytics and data science was an emerging topic. Now we are more than 100 people just in Barcelona focused on Analytics and Supply Chain.

### **Sudhan Sundaram**

Being the practice leader of Supply Chain, I'm very focused on the growth of our team, the right mix in terms of diversity, and also capability.

### **Jane Fenny**

A great team is the most important ingredient. We can make the impossible possible.

### **Jessica Sanchez Aguayo**

For me, the key thing within Accenture is the cooperation, right, the collaboration among teams, how people make you grow, ensure that that you learn, help you and coach you in every step of the way.

### **Delano Johnson**

I've learned so, so much. And within the last two years, things that I didn't know that I would be capable of doing, you know, I've learned while here at Accenture.

### **Adam Robbins**

What I was really excited about joining Accenture was getting a breadth of experience across multiple industries, while still being able to focus on Supply Chain and Operations.

### **Miguel Ortega**

Accenture really touches all industries, it touches a lot of different areas from artificial intelligence to analytics to what I do, which is technology implementation.

### **Esperanza Martorell**

Thanks to the opportunity that I had in Accenture, I know what my passion is which is combining engineering Supply Chain and operations with mathematics and data science.

### **Jane Fenny**

So I can see myself if I join Accenture, I can learn a lot of things, I can make a difference and help shape the future of the business and the government.

### **Anil Shetty**

So I'm personally very proud to be associated and working and growing within Accenture.
